To Whom It May Concern:

RE: Recommendation letter

The purpose of this letter is to formally and publicly commend the services that I received from Omnitech specifically Zack Sunn.

In South Africa I run my own business in wood work and construction. In 2014, I decided to look at new machinery so that I could expand my business. I was mainly looking at a CNC machine as I reside in the countryside and the types of products that are made by a CNC machine is not easily accessible in the countryside. I thought that buying a machine supplied from a local company would be best as they have guarantee's and would set my mind at ease on not to worry about the machinery . I shopped around looking and speaking to different suppliers. After sometime I decided that even though these local companies sell these products, they need to receive it from somewhere. That is when I started to look abroad for a CNC machine. China was one of the countries I looked at.

I must admit I was very hesitant at first to look at products from China due the standard of quality. But when I started contacting the companies, I felt more at ease knowing that what I was looking for was what they were selling, and that the quality was of a high standard. Omnitech was one of the first companies I contacted. Zack Sunn, the sales representative, was very helpful in explaining, what their company does and also what they could offer me. Zack answered all my concerns about the machine as well as the quality and workmanship. He was very patient with me in this regard.

I chose Zack, but more specifically Omni tech, out of 40 companies in CHINA due to them showing me that he as well as his company was carrying my best interest at heart.

I would definitely recommend Zack and Omnitech. I am satisfied with all the information he gave me in regard to the CNC WOOD ROUTER MACHINE. He seems like a hard working person and he gave me some really good advice.

On prior purchase of the CNC WOOD ROUTER MACHINE, i decided to go to China to see the machine myself before shipping. Zack told me exactly what to do and how to make my trip worthwhile. I'm very grateful for what he did for me, much appreciation to Mr. ZACK SUNN.

Kind regards,

Adiel Davids
